Brintons collaborated with Looney & Associates on 35,300 square yards of custom axminster and 1,600 square feet of custom hand tufted rugs for the brand new Marriott Marquis Houston.

"Obviously one of the key components of the interior design is [Brintons] carpet, spanning the floors of the meetings and function spaces on 3 entire floors. The overarching design concept is very much reflected in the carpet design. It pulls together the glamorous cosmopolitan style that creates the look of this high profile hotel in Downtown Houston."
